

Welcome to University Life.

Start your unique journey through University Life at Penn.

Cultural Resource Centers

University Life is home to Cultural Resource Centers (CRCs) that enrich the campus environment through academic engagement, cultural celebration, and community building. The centers work collaboratively to create welcoming and affirming spaces for all students to learn about themselves and different communities on campus.

Engagement & Leadership

Through playful curiosity and exploration, University life fosters engagement and leadership opportunities to promote personal growth and self-discovery for all students. Whether it's student government or one of the 800+ student clubs and organizations, students are equipped with the tools to make meaningful contributions, striving towards a life of purpose and fulfillment.

Care & Support

University Life creates and sustains a culture of care and support for undergraduates, graduates, and professional students. Students can access resources like disability services, peer-led educational programs, and comprehensive support through a unique model of community care, case management, and collaboration with campus partners.
